Tuesday Mite

Dear Son —

Are you an Sissy having fun in your sand box. Mama wrote me that the sand had arrived. I hope you are. you kind of watch after Susan when you are down there cause she is just a little girl and you are a great big boy.

I sure do wish I could see you and Sissy and mother. I miss you lots.

Could you see me waving at you after I got on to the plane at Cincinnati? You all looked awful sweet to me. I hated to leave you. The plane ride was lots of fun. You could look down on houses and they didn't look as big as one of your blocks. I think you and Susan will have a good time riding down here to see me. And do you know, I ate my supper on it. Riding up there in the air. It was a good supper too. Even

have ice cream for desert. And I had
breakfast the next morning. Don't you think
you will like that.

You should see what Daddy is
riding in now instead of his black Ford.
It looks like a jeep only it is larger. It
is called a weapons carrier. I have a
fellow named Antonio Casteneda driving
for me. I call him Tony. He doesn't speak
English very well but it is a whole lot better
than I can speak Spanish. He seems like a
pretty nice fellow and I think we'll get a
long O.K.

You should see all the funny things that take
place down here. People ~~carry~~ carry great big
loads on top of their heads. You can see pine
apples stacked upon the street like piles of brick
at home. There are lots of things you can see
when you come down.

When I was coming down on the plane, we
flew above the clouds part of the time. They
sure are pretty. It sort of looks like your bath
looked when you had "bubble bath". There
sure is lots for you to see.

You take good care of mama &
sissy and give them both a great big kiss
for me.

Good night
Daddy
